REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Best reference of record is Ise et al. Vis-à-vis independent claims 1, 14 and 27, despite its striking similarity with the device as recited in the latter claims, (1) the electro-optic variable aperture of the patent does not comprise a solution-phase medium electro-optic medium as noted in claim 1, and (2) the optical system (electro-optic variable aperture) and the optical sensor system (a sensor plus an electro-optic variable aperture) of the patent are not intended to be incorporated in a vehicle equipment system, as now called for in claims 14 and 27, respectively. In view of these differences, it is concluded that the present invention distinguishes over that of the patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
